

WASTE TECHNOLOGY

SSI SCHAFFER

SOLUTIONS THAT FIT

Modultainer

The cost-effective container
made of galvanized steel

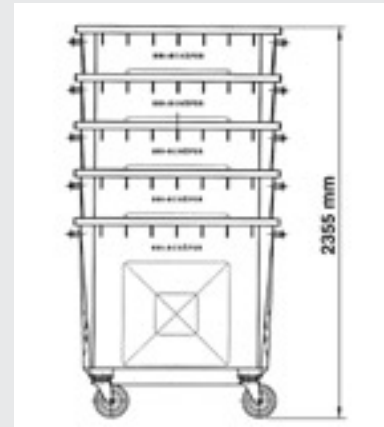

All the advantages at a glance:

- Low empty weight
- High stability due to precision reinforcement
- Very long life, due to full galvanization
- Compatible with all common lifting devices fitted to vehicles and static compactors
- Offers safe operation in workshops and factories as well
- Many special designs available for individual applications
- Available accessories:
 - lid opening foot pedal with controlled lid closing
 - lid locking bar
 - gravity lid lock
 - bottle hole with rubber insert
 - paper slot with rain cover
 - towing attachment
 - reinforced wheels
- Mountings for attachment of data carrying computer chips
- All measurements conform to DIN EN 840-2

Illustrated foot pedal as optional extra complete with unique mechanism for controlled lid closing

Easy stackability gives cost-effective transport

Technical data

MGB made from sheet steel	770 l	1100 l
Width mm	1370 +/- 10	1370 +/- 10
Depth mm	800 max	1115 max
Height mm	1370 max	1470 max
Nominal volume	770 l	1100 l
Maximum load in kg according to EN 840	308	440

(approx. values)
